REGISTRAR.

University of Madras

Report of the Syndicate upon the application from the Director of Public Instruction, Madras, for the further affiliation of the Government College, Mangalore, in Group ii--Natural Science, of the Intermediate courses.

The Syndicate reports the following correspondence relative to this application :—

Letter No. 543 of 1920, dated 1st September 1920, from the Ag. Director of Public Instruction, Madras, to the Registrar, University of Madras.

I have the honour to forward herewith, under Rule 4, Chapter XIV of the Madras University Regulations, an application for further affiliation of the Government College, Mangalore, in Group ii—Natural Science, of the Intermediate Examination in Arts and Science.

(*a*) *Management.*

The College is under the management of the Government of Madras and under the immediate control of the Director of Public Instruction, Madras.

(*b*) *Teaching Staff.*

One Assistant Lecturer in the V Grade of the Subordinate Educational Service has been sanctioned in G.O. No. 709, Home (Education), dated 17th June 1920, to provide instruction in Group ii of the Intermediate course. Natural Science is taught by the Acting Principal Mr. Savur who is a Cambridge B.A. and Mr. S. Srinivasa Rao, B.A. (Hons.), L.T., is Assistant Lecturer in Physics and Mr. Mudlagiri Nayak, B.A. (Hons.), L.T., is Assistant Lecturer in Chemistry.

(*c*) *Buildings.*

The Government buildings contain fairly adequate accommodation for the students of Group ii and there is also a proposal under consideration to improve existing accommodation by building a new storey to the High School laboratory. Due provision has been made for the supervision and physical welfare of the students.

(*d*) *Library.*

There is a fairly good library which is being added to every year.

Laboratory.

There is a properly equipped laboratory attached to the College. Sanction has also been obtained from Government for a grant of Rs. 2,000 towards the purchase of apparatus and appliances. The immediate requirements for instruction in Group ii of the Intermediate Examination in Arts have been supplied and the further equipment of the laboratory is expected to be completed as early as possible.

(*f*) *Hostel.*

There is a hostel attached to the College and due provision has been made for the exercise of supervision over the students.

(*g*) The College is a Government institution.

(*h*) The affiliation of the College in Group ii is not likely to be injurious to the interests of education or discipline of students of other colleges in the neighbourhood.

(*i*) Fees are levied at standard rates, prescribed in the Madras Educational Rules (Article 99).

Assurance.

All changes in the teaching staff will be reported to the Syndicate forthwith.

Letter No. 9167, dated 9th December 1920, from the Registrar, University of Madras, to M.R.Ry. Rai Bahadur K. Rangachariar Avl., M.A., L.T., Agricultural College, Coimbatore.

I have the honour to inform you that an application No. 543, dated 1st September 1920, has been received from the Director of Public Instruction, Madras, applying for further affiliation of the Government College, Mangalore, in Group ii—Natural Science, of the Intermediate courses of study. The Syndicate has appointed you to conduct a local inquiry at the college in accordance with the provisions of Section 21 (2) (*a*) of the Indian Universities Act, 1904. It is presumed that you will be willing to accept appointment, a condition of which is that the report should be submitted to the Syndicate within a month from the date of the inquiry, without being disclosed to the authorities of the college.

The application together with its enclosure is forwarded herewith in original to you, and you are requested to be so good as to arrange the date of the local inquiry at an early date in consultation with the Principal of the College.

Letter No. 9168, dated 9th December 1920, from the Registrar, University of Madras, to the Director of Public Instruction, Madras.

With reference to your letter No. 543, dated 1st September 1920, applying for further affiliation of the Government College, Mangalore, in Group ii—Natural Science, of the Intermediate courses of study, I have the honour, by direction, to inform you that the Syndicate has appointed M.R.Ry. Rai Bahadur K. Rangachariar Avergal, M.A., L.T., of the Agricultural College, Coimbatore, to conduct a local inquiry at the college under Section 21 (2) (*a*) of the Indian Universities Act, 1904, and that he has been requested to arrange for the inquiry at an early date in consultation with the Principal of the College.

Report of the Inspection of the Government College, Mangalore, for affiliation in Group ii of the Intermediate Examination.

Accommodation—

At present there are 16 students and one room 30' × 25' is available for their use. The Principal informed me that more room would be allotted as soon as the proposed extensions are completed, which I am informed would be done in the course of this official year.

Staff—

There is only one teacher in charge of the class. He graduated in 1918 taking Zoology as his main and Botany as his subsidiary subject for the B.A. Honours. He is expected to teach both Botany and Zoology. This may be possible if he has only one class, the first year class. As there will be two classes this year, it would be impossible for one teacher to manage both the classes. Another teacher is absolutely necessary and he should be a graduate in B.A. (Honours) with *Botany Main*. A graduate who has taken Botany as subsidiary subject cannot be expected to do justice to Botany, as the subsidiary standard is very low. For efficient training two graduate teachers one with Botany main and another with Zoology main should be appointed. Both the teachers would have enough to do, as previous preparation for class work and demonstrations have to be done. There is an attender attached to this class.

Furniture—

The work tables and stools provided are satisfactory and when the second year class is formed more furniture would be provided.

Apparatus—

There are five microscopes and this is sufficient for purposes of demonstration. Some more, I am told, would be added shortly. At present there are only 7 dissecting stands, but they have sufficient number of lenses for the use of the students. During the course of this year more dissecting stands and other apparatuses required for demonstration of Physiological Experiments would be added. As there is already a chemical and physical laboratory the glassware needed for class use are available.

Demonstration specimens such as fruits and seeds, stems, leaves, &c., and skeletons of animals to illustrate the morphology have not been secured. When two teachers are appointed, this can be attended to.

Library—

The Library contains a large number of books on Zoology and Botany and is sufficient for the requirement of the Intermediate class. The college may be affiliated for Group ii of the Intermediate on condition that another teacher who has taken his Honours Degree in Botany as his main is to be appointed immediately. The students are anxious to study Botany and Zoology and when the college is affiliated in Group ii of the Intermediate it will be popular and there is sure to be rush of students.

The Syndicate considered the above communication together with the whole correspondence at its meeting held on the 11th August 1921 and resolved to recommend the Senate to record its opinion that the application for affiliation may be granted by the Government.

Letter No. 7962, dated 30th August 1921, from the Registrar, University of Madras, to the Director of Public Instruction, Madras.

With reference to correspondence ending with this office letter No. 9168, dated the 9th December last, I have the honour, by direction, to inform you that the Syndicate has resolved to recommend to the Senate that it record its opinion that the further affiliation of the Government College, Mangalore, in Group ii of the Intermediate courses of study may be granted by the Government.

Copy communicated to the Principal, Government College, Mangalore, for information.
